5	SECRET/SECURITY INFORMATION	25 X 1
٠.	-2-	
	and the second of the contract	
3.	there was another plant which	25X1
	was supposed to come under the jurisdiction of the Ministry of Chemical Industry. This was the Svit Blant in Gottwaldov, which produced a variety of goods including chemical products. That part of the factory producing chemical goods will probably be placed under the Ministry of Chemical Industry, if it has not been by now. Inasmuch as tireseconstituted the principal product of the chemical part of the factory, it would most likely be placed in the Fifth Main Administration. The chemical department of Svit also produced	
	sulphuric acid, glue, gelatines, and plastics.	
4.	construction of a new tire factory would	25 X 1
	be started in 1954. such details as the location and
